## Leica Lino L360

Perfect levelling & aligning solutions

How do you align or level up on a job? By drawing tedious lines on the wall or on the floor?

The Leica Lino L360 projects laser lines quickly, accurately and further by increasing the working range to 360°.

You do not need to turn the device to transfer reference points from one side to the other. The proven Power Range Technology™ ensures outstanding line visibility.

This combination makes the Lino L360 a valuable partner for installers and allows perfect levelling and alignment.

- Reversible
- Waste Kit: WKIT04/

### Kitemark

A world-renowned symbol of trust, integrity and quality, Leisure is proud that a number of its products have earned the BSI Kitemark seal of approval. Auditing the superiority of our sinks as well as the quality management systems we have in place on a regular basis, the Kitemark is indisputable proof of manufacturing distinction. The Kitemark is not easy to attain, which is perhaps why it offers unprecedented peace of mind. Furthermore, recent polls reveal that more than 60% of consumers would choose a product affixed with the BSI Kitemark over a similarly priced product.

## George Fischer

### Cool-Fit

The Cool-Fit range of piping for chilled water, air conditioning and cold water services in general is split into three sections; the core product of ABS pipe with the addition of the more sophisticated, pre-insulated Cool-Fit Lite and Cool-Fit Plus. All the products use solvent cement jointing and are backed by a range of accessories to ensure that installation is as simple as possible. Although they are tough, durable and highly corrosion resistant, the light weight of these plastic pipes when compared to traditional materials makes them extremely attractive.

## AKW

### Brochure

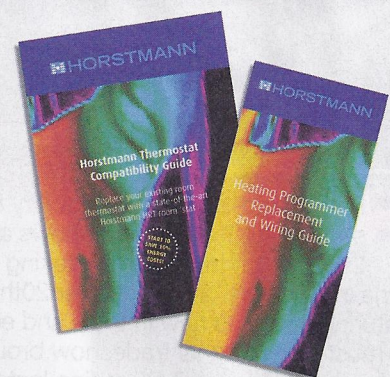

The latest publication from AKW showcases its full range of showering and bathroom products for the care and retirement markets. Highlighting the company's 'Styleability' message, the brochure uses high-quality images to illustrate how accessible products come together to create beautiful bathrooms that are safe, easy to use and stylish. With a product portfolio that features over 4,000 lines, the company uses the new brochure to focus on its range of showers, shower enclosures and bathroom

accessories and aids. Running throughout the brochure is the message that accessible bathrooms can hold the key to independent living in a care or retirement environment.

## Horstmann

### Controls Guide

Horstmann has recently published an updated version of its popular wiring guide that lists most popular manufacturers of programmers and the Horstmann equivalent for replacement. Further, the guide provides an easy, colour coded guide to the type of replacement, ranging from simple plug in and replace to more complex installations where possibly re-wiring or a new backplate is needed. As well as programmers, the pocket size guide also gives replacement guidance for timeswitches.

## LA-CO

### Slic-Tite

Said to be ideal for use on domestic and commercial applications, Slic-Tite from LA-CO boasts that it is "the only jointing compound plumbers will ever need for their tool kit." Suitable for use on threaded gas pipes as well as those carrying potable and hot water, steam air, petrol, oil and refrigerants, the compound comes ready for use with no curing needed, which means there is much less preparation required, which saves time which can be better spent getting on with the job at hand. It also means plumbers can be certain that the compound is of the right consistency to provide a secure, safe seal every time.
