

Over **£6,000** of essential gear must be won!

On the ninth day of Christmas PE gave to me...

## 9 Irwin Vise-Grip Fast Release Locking Pliers

Featuring a self-energising lower jaw the tool specialist believes its new pliers provide 3 times more gripping power than traditional locking pliers, with no slipping or stripping. This helps to provide maximum torque without requiring heavy input pressure, as the jaw mechanism naturally grips tighter as more torque is applied to the tool.

The one-handed, triggerless release is easier to open than traditional locking pliers and the anti-pinch, non-slip ProTouch Grips provide comfort, control, and less hand fatigue. Constructed of high-grade heat-treated alloy steel for maximum toughness and durability, the hex key adjusting screw tightens to adjust pressure and draw materials together while providing a controlled release.

On the tenth day of Christmas PE gave to me...

## 10 Stanley FatMax Box Beam Levels

The FatMax Box Beam's rock solid construction is super strong (the company claim it is up to five times stronger than conventional levels) and has dual machined levelling surfaces for optimum accuracy. It also features solid black vials, which are magnified by 20 per cent for all round visibility.

Shock absorbing end caps help to deliver a longer life and protect the Box Beam Level from the knocks and drops that are par for the course when working on site. Coming with a ten year accuracy guarantee it'll help any contractor keep a level head onsite for years to come!

On the eleventh day of Christmas PE gave to me...

## 11 Scruffs Zip Thru Fleece

Been cold whilst working recently? We can solve that problem right away. Scruffs new Zip Thru Fleece is a warm work top made from thick, hardwearing polyester and cotton designed to keep your toasty on cold winter days.

The full length zip top has a warm internal fleece lining and it contains a zipper concealed, double lined hood. While an integral storm flap and underarm eyelets combine with the drawcord hood, ribbed waist and cuffs to provide a comfortable tailored fit. The styling is a balance between on-site and casual, so you can wear it just about anywhere you like.

On the twelfth day of Christmas PE gave to me...

## 12 Big Wipes Kits

Covered in grime? You'll need some Big Wipes to shift that stuff – whatever it is and whether it's on you, your tools or your workshop. With their 'one wipe shifts the lot' formula, Big Wipes cut through anything from heavy grease and oil-based paints to stubborn PU expanding foams and adhesives, silicone sealants and epoxy grouts, which means you can quickly scrub up at work or on the move. The kit includes Big Wipes Industrial 80s, Big Wipes Industrial Plus + 80s, Big Wipes handy packs, two Industrial 20s and two Industrial Plus + 20s.

All contain a fully biodegradable cleaning formula that complies with all the latest EU Cosmetics Standards and is dermatologically tested, anti-bacterial and contains skin conditioners Aloe Vera and Vitamin E.
