Snickers RUFFWork – heavy duty working clothes

Part of the Next Generation Workwear range, Snickers' RUFFWork working clothes are modern, heavy-duty garments that combine fit with reinforced features.

The trousers are specially designed for professional craftsmen who really rely on their gear in demanding on-site conditions.

Special 'Dobby Pro' fabric garments provides a combination of comfort and durability. 'Cordura 1000' reinforcements are up to three times more durable than regular Cordura and, with a special DWR coating to repel oil and moisture.

RUFFWork trousers are available in different feature and functionality levels that include holster pockets, built-in ventilation and a stretch gusset. They're also available in Denim and as shorts.

To get more information on the Snickers range of Next Generation WorkTrousers visit www.snickersworkwear.co.uk

NEW Range of Craftsman's knives Precision, quality and long-lasting sharpness are the hallmarks of the new range of Hultafors Tools for professionals.

With a selection of heavy duty knives, safety knives, chisel knives and utility knives already available from Hultafors, there's also specially designed and developed products for electricians.

The knives include those for general-purpose outdoor use as well as ones for precision tasks. They're all ergonomically designed and made from the high quality Japanese steel.

The Handles are made from a friction-grip Santoprene and Sheaths are made from extra durable polypropylene plastic with special fasteners so they can easily be carried on Snickers working clothes.

What's more, all the different knives are colour coded so you can pick the right one first time from your toolbox.

Mighty defence against skin damage

Dry skin and cracked, painful hands are a common ailment among the trade, but Big Wipes has come to the rescue with its new, specially formulated Hand Cream. Solvents, paints and varnishes all strip the skin of its natural oils. Harsh substances can break the skin's protective barrier and contact dermatitis can develop with symptoms ranging from mild dryness, itching and redness to painful cracks, skin ulcers and red fluid filled blisters. Cracked and broken skin can allow infections to take hold.

Big Wipes Hand Cream, with its powerful combination of urea and alpha hydroxyl acids (AHAs), relieves dry and rough skin, strengthens the skin's barrier function and improves its ability to absorb and hold moisture. In conjunction with Big Wipes 4x4 hand-cleaning wipes, Big Wipes Hand Cream keeps your skin in tip-top condition.

Easy access with C.K tools MightyRod Set

Understanding the working needs of electricians, C.K tools has introduced the MightyRod Tool Box Cable Rod Set, a convenient cable rod set aiding efficient cable installation in hard to reach, tight spaces.

Supplied in a storage tube sized to fit most tool boxes and bags, the set is easily transported and includes 10 x 33cm rods, which, when combined, creates a total length of 3.3m. 'Mighty-Fix' zinc plated steel connectors feature a slimline design and are glued, indented and crimped, making them able to withstand up to 375kg of tensile pull strength. The 5mm nylon coated rods are manufactured with a high-sheen fibreglass and resin composite and for extra functionality the set also includes a 5mm adapter and cable hook, a 190mm coiled steel flexi lead and a mini eye ring, providing all the solutions needed for even the most difficult of cable routing tasks faced by electricians.
