

## HEALTH & SAFETY

### PRODUCT ROUND-UP

#### HAND CREAM

Dry skin and cracked, painful hands are a common ailment among the trades, but **Big Wipes** has come to the rescue with the launch of its new, specially formulated Hand Cream. A powerful combination of urea and alpha hydroxyl acids (AHAs), provides a treatment cream that relieves dry and rough skin, helps strengthen the skin's barrier function and improves its ability to absorb and hold moisture.

#### WORK GLOVES

Glove manufacturer **Polyco** has launched the new Multi-Task E (Hi-Viz) which features a layer of thermoplastic rubber (TPR) applied to the back of the gloves that has been carefully engineered to guard against

injuries caused by impact. The highly-flexible rubber applied to the back of the gloves is soft, which means it deflects the force of the blow away from the hand without compromising dexterity. The engineered rubber is strong and durable and will not break down over time, unlike foam or gel.
