

# TOOLS & EQUIPMENT PRODUCTS

PE takes a closer look at some of the latest tools to hit the market.

## » Bahco

### Trade Saws

Following tough workplace testing, Bahco's new Superior, ProfCut and PrizeCut saws are now available in the UK.

Blade lengths range from a 12" tenon, 14" veneer and 20" precision saw to 22" and 24" lengths for coarse and medium cutting. An angled nose enables better access in tight places.

The Superior's low friction blade has the very latest NXT hardpoint toothing to achieve smoother, straighter cuts and a higher, flatter finish with less risk of deviation from the original line and no loss of speed.

The ProfCut and PrizeCut saws have anti-slip handles, inspired by the ergonomic principles of the Superior handle, offering comfortable, secure grip in all workplaces and weathers.

## « Big Wipes

### Big Wipes Cage

This fully adjustable wall and van bracket means you can keep your Big Wipes close at hand whether you're in a workshop or zipping around in your van.

The cage fixes easily into ply panelling or into a bespoke racking

system in vans and is wall mountable for the workshop, or near the sink for the Power Gel. Made from tough high quality polycarbonate, the Cage comes with pre-drilled holes for screw fixing. Once installed, the cage allows Big Wipes 4x4, Power Spray and Power Gel to be accessed with just one hand for those very messy jobs.

## » Bosch

### Pocket Assistant App

Pocket Assistant is an extension of the free Bosch Toolbox app which helps tradespeople find the right tool or accessory. Just scan the Bosch product or accessory packaging using a smartphone, and you have instant access to all available information about the product including technical details, application films and recommended accessories. The app's product identification function combines various technologies, such as image and text recognition, to ensure that reliable results are obtained.

The Bosch Toolbox app is available in the Google Play and Apple App Stores for smartphones with Android and iOS operating systems.

## » ForgeFix

### ForgeFast Screws

This range of screws has been designed to provide the highest performance in areas such as drive-speed, cam-out reduction, corrosion resistance, shear prevention and even environmental protection.

The screws feature reinforced countersunk necks, angled or inset lobes, double cutting or sharp points, and anti-friction or self-drilling threads.

The new ForgeFast screws also benefit from ForgeFix's proprietary Elementech 400 coating. This coating, which has been salt spray tested to 400 hours, gives the new screws their exceptional weather resistance and lasts up to six times longer than more commonplace zinc coatings.

## » Fein

### Dust Extractors

Power tool expert FEIN has added two new premium class models to its range of dust extractors. The Dustex 35 MX AC is an M Class approved extractor (WEL > 0.1 mg/m<sup>3</sup>) whilst the FEIN Dustex 35 LX AC is rated for L-classification extraction (WEL > 1.0 mg/m<sup>3</sup>). Both machines come with a large number of special equipment features and extensive accessories making the tools suitable for multiple professional tasks on site or in the workshop.

Both models are equipped with automatic filter cleaning.
